SAFE was created in 2009 to support and promote aviation education at all levels of learning. Since that time, SAFE has become a recognized leader in pilot training reform, safety education, and the mentoring of aviation educators.

Through partnerships with premier aviation organizations such as Redbird Flight Simulations, Lightspeed Aviation, Starr Aviation Insurance, Master Instructors LLC, Ninety-Nines International, IMC Clubs, and the FAA Safety Team (FAASTeam), SAFE members have a special opportunity to influence and advance the future of the aviation industry while improving their own aviation educator skills.

SAFE is a member-driven non-profit professional organization for all aviation educators and was founded on the principles of openness, accountability, and inclusiveness.
