- ALPA – SMS and Data Analysis Course
- APLA – Chief Accident Investigator/Coordinator
- Co-Teach Multiple FAASTeam/Wings Events

Personal Statement

Aviation has been my career and my hobby. With a dream of flying, I concurrently pursued my undergraduate degree and all of my certificates. My desire to learn and give back continues today through aircraft ownership, general aviation instruction, and being a Delta Line Check Pilot. Whether working with general aviation students or completing certification of a pilot at work, the reward of a proper and successful evaluation is exciting! Sitting in the observation seat during a line check has taught me so much more about aviation and pilot capabilities than I've ever imagined. I would love to continue this process throughout general aviation by holding the highest standards and enjoying the success of all the amazing candidates as a Designated Pilot Examiner.
